

Newark, N.J.-Brooklyn

# POLICE MURDER NEWARK MAN FIGHT POLICE REPRESSION !

On Friday June 14 Charles Sutton was murdered in jail by the Newark police. His brutal beating and "lynching" show the kind of harassment, intimidation and murder that face the Black and Third World communities everyday. Charles' murder, Operation Zebra in San Francisco, the murder of Clifford Glover in N.Y. and Brian Gibson in Atlanta show that this repression is widespread and no accident. The rich powerful businessmen who run this country use police repression to keep the masses of working and poor people down and divided. Police repression, bad housing, high unemployment and discrimination are all part of the national oppression that Black and Third World people face. The courts and legal system are another means to continue this repression. The release of killer cop Shea in N.Y. is a clear example of the courts covering up police murder.

In 1967, July 17-24 28 people were killed in Newark when police and National Guard occupied the city. This kind of repression is still going on and must be fought against to protect ourselves, our families and communities. On July 17-20 the COMMITTEE FOR JUSTICE FOR CHARLES SUTTON plans four days of actions demanding Justice for Charles Sutton/End All Police Repression. Only by uniting the people into a powerful movement can we begin to fight back and protect ourselves from these attacks.
